

CHI Career Services

GED/ESL TRAINING Program

- Learn to improve your language & reading skills
- Acquire better writing skills
- Improve math skills
- Study towards earning the GED
- Improve computer skills

FREE COMPUTER PROVIDED UPON EMPLOYMENT

- Adult Education and Literacy Program provides individualized and group instruction. Emphasis is placed on developing and improving skills, especially towards earning the (GED) General Equivalency Diploma. However, our program is open to all individuals who desire assistance with individual language arts, reading or mathematics skills, whether contemplating further educational opportunities, preparing to enter college or improving job placement.
- The Program is designed to assist GED candidates in all aspects of exam preparation, study skills, test taking strategies, and continuing educational endeavors, attempting to insure student success in a friendly and open learning environment. Participants will work with appropriate supplemental instructional materials and aids, as well as computer managed and computer assisted instructional materials.
- The CHI English as a Second Language Program is dedicated to the enrichment of our culturally diverse citizenry through interactive classroom instruction, one-on-one literacy level tutoring, and a celebration of cultural diversity and exploration.
- **CHI offers students a computer FREE** for completing the program and securing employment. Participants who successfully finish the course will also qualify for referral to the county sponsored CST program which will provide funds for students to get their Driver's License, permits, lessons, road test, insurance and even car repairs. Bonus incentive of up to \$2,000 toward the purchase of a car for those who work for six consecutive months.
